Tuesday

Humboldt County Library

1313 3rd Street

Eureka

CRESCENT CITY

SEP 19, 2001

Wednesday

Ship Ashore Resort

1237 Hwy 101 North

Smith River

Safety Programs will begin 7:00pm

PROGRAM

“MOUNTAIN FLYING OPERATIONS”

Every year pilots plan personal and/or business trips that include routes or destinations in mountainous terrain. Mountain flying can be a wonderful experience because of the scenery and associated activities found in these areas. Statistics show, however, pilots who have not received recognized training for this type of flight may be unprepared for the potential hazards they may face.

The number of flight hours a pilot has experienced in a specific type of flight is an important figure to his/her overall safety potential. Training for Mountain Flying is critical, failure to obtain recognized training increases the potential for accidents. This Safety Program will address key issues; Density Altitude, Weather Conditions, Aircraft Operation, Controlled Flight Into Terrain and Pilot Decision Making.

Qualifies for the FAA Wings Program
